Stopping Gender-based Violence in Higher Education

2022-08-12 Clarissa J. Humphreys Stopping Gender-based Violence in Higher Education provides a unique insight into how gender-based violence at universities is impacting students and staff and outlines the path toward tangible changes that can prevent it. Bringing together perspectives from academics, activists, practitioners, and university administrators, the book presents a diverse range of voices to constructively critique the field. Structured in three parts, the book begins by addressing the context, theory, and law that stipulates how universities can effectively respond to reports of

gender-based violence. It goes on to discuss the most pragmatic ways to address the issue while contributing to prevention and supporting victim-survivors. Finally, the book advocates for the development of beneficial working partnerships with key external services available to university communities and also working with students as partners in an ethical and safe way. Throughout the book, contributors are invited to demonstrate a comprehensive institution-wide and trauma-informed approach to centre the needs of the victim-survivor and prioritize resources to undertake this vital work. Each chapter ends with a brief summary of key points or recommendations and suggested further reading on the chapter topic. Although the

authors draw on research and policy from the UK Higher Education sector, the insights will be a useful resource for those in universities around the world. This book is an essential reference point and resource for professionals, academics, and students in Higher Education, as well as indispensable reading for activists, policymakers, police, rape crisis groups, and other organisations supporting these universities who want to make meaningful change in reducing, responding to, and preventing gender-based violence in Higher Education.

Gender-Based Violence: A Comprehensive Guide

2023-06-01 Parveen Ali This book provides comprehensive information about various types of gender-based violence (GBV) and abuse. GBV is a major public health and social problem that affects people, mostly women and girls, in every community, culture, and country. GBV refers to

the violence or a pattern of abusive behaviours including physical aggression, sexual coercion, psychological abuse and controlling behaviours resulting in physical, sexual or psychological harm. It is associated with severe physical and psychological consequences, and can result in death. . GBV can take many forms including female foeticide, infanticide, female genital mutilation, child marriage, grooming, trafficking, forced marriage, dowry- related abuse, honour-based violence, rape, sexual assault, stalking, harassment, street violence, abuse against older people, domestic violence, and intimate partner violence. It can take place in public, private and virtual settings, and within the context of intimate, familial, community and institutional relationships. While all these forms affect girls and women more, boys and men can also be exposed of various forms of violence including child abuse, sexual abuse, wartime violence, corporal punishment to name a few. This book takes a unique approach and presents an

overview of gender-based violence and related practices throughout the world. The book is written in a user friendly manner in order to be accessible as an introductory text to a wide range of readers including students, practitioners and researchers. Edited by a public health academic and a social worker, with contributions representing a wide range of disciplines, the book will appeal to many professions including nurses, midwives, social care and social work practitioners, police, teachers, psychologists, and sociologists.

Gender-based Violence and Rurality in the 21st Century

2023-05-30 Ziwei Qi Gender-based violence (GBV) can take many forms and have detrimental effects across generations and cultures. The triangulation of GBV, rurality and rural culture is a challenging and essential topic and this edited collection provides an innovative analysis of GBV in rural communities. Focusing on under-studied and/or oppressed groups such as immigrants and LGBTQIA+ people, the book explores new theories on patterns of violence. Giving insights into GBV education and prevention, the text introduces community justice and victim advocacy approaches to tackling issues of GBV in rural areas. From policy review into actionable change, the editors examine best practices to positively affect the lives of survivors.

Preventing and Responding to Gender-based Violence in Middle and Low-income Countries

2005 Sarah Bott Worldwide, patterns of violence against women differ markedly from violence against men. For example, women are more likely than men to be sexually assaulted or killed by someone they know. The United Nations has defined violence against women as "gender-based" violence, to acknowledge that such violence is rooted in gender inequality and is often tolerated and condoned by laws, institutions, and community norms. Violence against women is not only a profound violation of human rights, but also a costly impediment to a country's national development. While gender-based violence occurs in many forms throughout the life cycle, this review focuses on two of the most common types-physical intimate partner violence and sexual violence by any perpetrator. Unfortunately, the knowledge base about effective initiatives to prevent and respond to

gender-based violence is relatively limited. Few approaches have been rigorously evaluated, even in high-income countries. And such evaluations involve numerous methodological challenges. Nonetheless, the authors review what is known about more and less effective-or at least promising-approaches to prevent and respond to gender-based violence. They present definitions, recent statistics, health consequences, costs, and risk factors of gender-based violence. The authors analyze good practice initiatives in the justice, health, and education sectors, as well as multisectoral approaches. For each of these sectors, they examine initiatives that have addressed laws and policies, institutional reforms, community mobilization, and individual behavior change strategies. Finally, the authors identify priorities for future research and action, including funding research on the health and socioeconomic costs of violence against women, encouraging science-based program evaluations, disseminating

evaluation results across countries, promoting investment in effective prevention and treatment initiatives, and encouraging public-private partnerships.

Eliminating Gender-based Violence Governance and Survivor/Victim-centred Approaches

2021-12-07 OECD Gender-based violence affects many aspects of survivors' and victims' lives, including access to education, employment, housing, health care, legal support, and physical and mental health services. This publication explores how countries can strengthen public governance systems, respond to the needs and experiences of survivors/victims, and improve access to justice and accountability to effectively address gender-based violence.

Routledge Handbook on Men, Masculinities and Organizations

2023-11-24 Jeff Hearn This Handbook provides

*Analysis For Financial Management Gbv

new theoretical and empirical insights into men, men's practices and masculinities across many kinds of organizations and forms of organizing. Most mainstream studies of organizations, leadership and management do not seem to notice they are often talking a lot about men and masculinities. The Handbook challenges this general tendency to avoid gendering men by bringing together a range of theoretical and methodological approaches that: engage with not only formal organizations, such as businesses and state organizations, but also processes of organizing within and beyond organizations; address emergent and future issues on men, masculinities and organizations, such as tech masculinities, men's emotions, sexualities and violences, animal advocacy and environmental issues, and men and masculinities in pandemics. Targeted at scholars, policymakers, practitioners and students interested in links between men, masculinities, organizations and organizing, this landmark

Handbook is an invaluable resource for those working in and beyond such fields as gender studies, organization, leadership and management studies, political science, sociology, social and public policy, and social movement studies.

Statistical Power Analysis for the Behavioral Sciences

2013-05-13 Jacob Cohen Statistical Power Analysis is a nontechnical guide to power analysis in research planning that provides users of applied statistics with the tools they need for more effective analysis. The Second Edition includes: * a chapter covering power analysis in set correlation and multivariate methods; * a chapter considering effect size, psychometric reliability, and the efficacy of "qualifying" dependent variables and; * expanded power and sample size tables for multiple regression/correlation.

Development Assistance for Peacebuilding

2017-07-28 Rachel M. Gisselquist Development assistance to fragile states and conflict-affected areas can be a core component of peacebuilding, providing support for the restoration of government functions, delivery of basic services, the rule of law, and economic revitalization.

What has worked, why it has worked, and what is scalable and transferable, are key questions for both development practice and research into how peace is built and the interactive role of domestic and international processes therein. Despite a wealth of research into these questions, significant gaps remain. This volume speaks to these gaps through new analysis of a selected set of well-regarded aid interventions. Drawing on diverse scholarly and policy expertise, eight case study chapters span multiple domains and regions to analyse Afghanistan's National Solidarity Programme, the Yemen Social Fund for Development, public financial management reform in Sierra Leone,

Finn Church Aid's assistance in Somalia, Liberia's gender-sensitive police reform, the judicial facilitators programme in Nicaragua, UNICEF's education projects in Somalia, and World Bank health projects in Timor-Leste. Analysis illustrates the significance of three broad factors in understanding why some aid interventions work better than others: the area of intervention and related degree of engagement with state institutions; local

contextual factors such as windows of opportunity and the degree of local support; and programme design and management. This book was originally published as a special issue of the journal *International Peacekeeping*. The Open Access version of this book, available at <https://www.taylorfrancis.com/books/e/9781351624572>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.
