Transcendental Magic 1968-01-15 Eliphas Levi This is Eliphas Levi's (1810-1875) best-known book. This work arguably made Levi THE most influential writer on magic since the Renaissance. Originally issued in French, the English translator is A.E. Waite and it is doubtful that anyone else could have better captured the essence of Levi's work. The book is divided in two parts; the first is theoretical, the second practical. This is a fascinating and often debated work involving a discussion that covers almost the entire realm of Ritual and High Magic.

The Rejection of Consequentialism 1994-08-11 Samuel Scheffler In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Wage Labor and Guilds in Medieval Europe 1991 Steven A. Epstein Relying on a broad range of printed and secondary sources, Wage Labor and Guilds charts the history of guilds from their antecedents in the Roman Empire to their 'crisis' in the fourteenth century. . . . As a much-needed synthesis, [the book] will serve students well.--Speculum "A thoughtful and wide-ranging contribution to the social and economic history of the High Medieval urban milieu.--Journal of Interdisciplinary History "Interesting and comprehensive. . . . A major accomplishment.--Journal of Economic History "Epstein takes a fresh look at the organization of labor in medieval towns and emphasizes the predominance of a wage system within them. He offers illuminating comment on a wide range of subjects--on guilds and guild organization, on women and Jews in the work force, on the value given labor, and on the sources of disaffection. His book presents a feast of themes in medieval social history.--David Herlihy, Brown University

The Painter's Touch 2018-01-08 Ewa Lajer-Burcharth A new interpretation of the development of artistic modernity in eighteenth-century France What can be gained from considering a painting not only as an image but also a material object? How does the painter's own experience of the process of making matter for our understanding of both the painting and its maker? The Painter's Touch addresses these questions to offer a radical reinterpretation of three paradigmatic French painters of the eighteenth century. In this beautifully illustrated book, Ewa Lajer-Burcharth provides close readings of the works of François Boucher, Jean-Siméon Chardin, and Jean-Honoré Fragonard, entirely recasting our understanding of these painters' practice. Using the notion of touch, she examines the implications of their strategic investment in materiality and sheds light on the distinct contribution of painting to the culture of the Enlightenment. Lajer-Burcharth traces how the distinct logic of these painters' work—the operation of surface in Boucher, the deep materiality of Chardin, and the dynamic morphological structure in Fragonard—contributed to the formation of artistic identity. Through the notion of touch, she repositions these painters in the artistic culture of their time, shifting attention from institutions such as the academy and the Salon to the realms of the market, the medium, and the body. Lajer-Burcharth analyzes Boucher's commercial tact, Chardin's interiorized craft, and Fragonard's materialization of eros. Foregrounding the question of experience—that of the painters and of the people they represent—she shows how painting as a medium contributed to the Enlightenment's discourse on the self in both its individual and social functions. By examining what paintings actually “say” in brushstrokes, texture, and paint, The Painter's Touch transforms our understanding of the role of painting in the emergence of modernity and provides new readings of some of the most important and beloved works of art of the era.

A History of Homosexuality in Europe, Vol. I & II 2006 Florence Tamagne Outstanding Academic Title 2005 - Choice Magazine The period between the two world wars was crucial in the history of homosexuality in Europe. It was then that homosexuality first came out into the light of day. Just crawling out from under the Victorian blanket, Europe was devastated by a gruesome war that consumed the flower of its youth. Tamagne examines the currents of nostalgia and yearning, euphoria, rebellion, and exploration in the postwar era, and the bonds forged at school and on the battlefield, in a scholarly treatise charting the early days of the homosexual and lesbian scene. Berlin became the capital of the new culture, and the center of a political movement seeking rights and protections for what we now call gays and lesbians. In England, the struggle was brisk to undermine the structures and strictures of Victorianism; whereas in France (which was more tolerant, over all), homosexuality remained more subtle and nonmilitant. However, the social and political backlash soon became apparent, first of all in Germany. More conservative attitudes arrested the evolution of the new mores, and it was not until the 1960s that the new wave of the sexual revolution once again swept the continent. Tamagne's work outlines the long and arduous journey from the shadows toward acceptability as the homosexual and lesbian community sets out to find a new legitimacy at various levels of society. She weaves together cultural references from literature, songs and theater, news stories and private correspondence, police reports and government documents to give a rounded picture of the evolving scene. * "The first volume argues that homosexuality, a 'high culture' sort, enjoyed a golden ageconsequent upon the Great War's liberalization of morals. In volume 2, reaction and repression march through the 1930s. [...] A lively read. Highly recommended." - CHOICE Magazine * Florence Tamagne holds a PhD from

The French Assault on American Shipping, 1793Ð1813 2009-04-15 Greg H. Williams During the French Revolutionary and Napoleonic eras, France was plagued by war and crop failures and was desperately in need of supplies. Legally and illegally, French privateers and cruisers took cargo from merchant vessels of every nation, perhaps the United States more than any other. At least 6,479 U.S. claims involving more than 2,300 vessels were filed and these claims give a close approximation of American goods lost to the French. The three main sections of this reference book present a comprehensive accounting of the losses (arranged by ship), descriptions of court cases involving important questions of law, and the disposition of claims. Also included are a glossary, a list of geographical locations mentioned in the text, and an overview of relevant acts of Congress, proclamations, treaties, and foreign decrees.

Against the Valentinians 2019-12-07 Tertullian of Carthage Adversus Valentinianos, or Against the Valentinians, is a famous refutation of Valentinianism by Tertullian, an orthodox contemporary of the Gnostics and one of the first to investigate them. The work satirized the bizarre elements that appear in Gnostic mythology, ridiculing the Gnostics for creating elaborate cosmologies, with multi-storied heavens like apartment houses.

Our Dark Side 2013-10-21 Elisabeth Roudinesco Where does perversion begin? Who is perverse? Ever since the word first appeared in the Middle Ages, anyone who delights in evil and in the destruction of the self or others has been described as 'perverse'. But while the experience of perversion is universal, every era has seen it and dealt with it in its own way. The history of perversion in the West is told here through a study of great emblematic figures of the perverse - Gilles de Rais, the mystical saints and the flagellants in the middle ages, the Marquis de Sade in the eighteenth century, the masturbating child, the male homosexual and the hysterical woman nineteenth century, Nazism in the twentieth century, and the complementary figures of the paedophile and the terrorist in the twenty-first. The perverse are rarely talked about and when they are it is usually only to be condemned. They are commonly viewed as monstrous and cruel, as something alien to the very nature of being human. And yet, perversion can also attest to creativity and self-transcendence, to the refusal of individuals to submit to the rules and prohibitions that govern human life. Perversion fascinates us precisely because it can be both abject and sublime. Whether they are sublime because they turn to art or mysticism, or abject because they surrender to their murderous impulses, the perverse are part of us because they exhibit something that we always conceal: our own negativity and our dark side.

A Wave of Dreams 2010 Aragon This is the first time Aragon's seminal French surrealist text has been published in English as a single volume and the translation is accompanied by a CD of eight spoken extracts set to music by Tymon Dogg and Alex Thomas. Aragon's extraordinary prose-poem-essay A Wave of Dreams (Une vague de rêves), is a compelling, lyrical, first-hand account of the early days of surrealist experimentation in Paris. Writing in 1924, Aragon vividly describes, and philosophically evaluates, the inner adventures, the hallucinations and encounters with the 'Marvellous' which took the young surrealists to the brink of insanity as a revolutionary new era in Art History was born."

Dan Yack 2002 Blaise Cendrars Centering on eccentric English millionaire shipowner, notorious hell-raiser, and the envy of all St Petersburg, Dan Yack, this strange travel yarn begins with the protagonist finding out that he is no longer wanted by his lover, Hedwiga. Rejection letter in hand, he eventually wanders into a nightclub to impulsively invite a handful of artists to accompany him on a world voyage via the Antarctic. As their journey progresses, the weather worsens and they enter pack-ice. Impatient, Dan orders the crew to land him and his three companions while they wait for a clear passage. They have enough provisions for a long, dark polar winter, but things do not run smoothly. The musician destroys their watches, the poet drifts off into serious daydreams, and the sculptor starts making statues of Dan Yack in ice. And Dan himself is worried--about time, about breaking

his monocle, and about having no-one to love. But when the sun finally returns after the polar winter, no one could predict the surreal disaster that is about to unfold--a scenario involving a plum pudding, whales, women, and World War I.

Gabriel de Saint-Aubin 2007 Gabriel Jacques de Saint-Aubin Gabriel de Saint-Aubin, born in 1724, never left his native Paris. He studied at the prestigious Royal Academy but failed to win the coveted Prix de Rome. He is often said to have reacted to this disappointment by throwing aside all hopes of a traditional artistic career and hastening out into the thoroughfares of Paris to sketch everything in sight, living an errant, bohemian existence and succumbing increasingly to an obsession with drawing. But despite his personal eccentricities he was employed as an illustrator all his life.

The Key of the Mysteries 2011-05 Eliphas Levi On the brink of mystery, the spirit of man is seized with giddiness. Mystery is the abyss which ceaselessly attracts our unquiet curiosity by the terror of its depth. The greatest mystery of the infinite is the existence of Him for whom alone all is without mystery. Comprehending the infinite which is essentially incomprehensible, He is Himself that infinite and eternally unfathomable mystery; that is to say, that He is, in all seeming, that supreme absurdity in which Tertullian believed. Necessarily absurd, since reason must renounce for ever the project of attaining to Him; necessarily credible, since science and reason, far from demonstrating that He does not exist, are dragged by the chariot of fatality to believe that He does exist, and to adore Him themselves with closed eyes. Why? Because this Absurd is the infinite source of reason. The light springs eternally from the eternal shadows. Science, that Babel Tower of the spirit, may twist and coil its spirals ever ascending as it will; it may make the earth tremble, it will never touch the sky. God is He whom we shall eternally learn to know better, and, consequently, He whom we shall never know entirely.
