It includes the lives and lessons learned by many people from many cultures. Chronology

2011-01-21 Charles Ozanne In this work the whole panorama of Bible Chronology has been subjected to close examination from the creation of Adam to the end of Acts. The aim has been to open up that system of dating which commends itself as most probably correct from the biblical perspective. Having done that he has looked for ways to harmonise the resultant scheme with the contradictory dates derived from the Assyrian Eponym

The Bible and Radiocarbon Dating

2014-12-05 Thomas Levy Over the past several years, a number of Levantine archaeologists working on the Iron Age (ca. 1200 - 586 BCE) have begun to employ high precision radiocarbon dating to solve a wide range of chronological, historical and social issues. The incorporation of high precision radiocarbon dating methods and statistical modelling

into the archaeological 'tool box' of the 'Biblical archaeologist' is revolutionizing the field. In fact, Biblical archaeology is leading the field of world archaeology in how archaeologists must deal with history, historical texts, and material culture. A great deal of debate has been generated by this new research direction in southern Levantine (Israel, Jordan, Palestinian territories, southern Lebanon & Syria, the Sinai) archaeology. This book takes the pulse of how archaeology, science-based research methods and the Bible

interface at the beginning of the 21st century and brings together a leading team of archaeologists, Egyptologists, Biblical scholars, radiocarbon dating specialists and other researchers who have embraced radiocarbon dating as a significant tool to test hypotheses concerning the historicity of aspects of the Old Testament or Hebrew Bible. As this book "raises the bar" in how archaeologists tackle historical issues as manifest in the interplay between the archaeological record and text, its interest will go well beyond the 'Holy Land.'
