Why We Play 2016 Roberte Hamayon Play is one of humanity's straightforward yet deceitful ideas: though the notion is unanimously agreed upon to be universal, used for man and animal alike, nothing defines what all its manifestations share, from childish playtime to on stage drama, from sporting events to market speculation. Within the author's anthropological field of work (Mongolia and Siberia), playing holds a core position: national holidays are called "Games," echoing in that way the circus games in Ancient Rome and today's Olympics. These games convey ethical values and local identity. Roberte Hamayon bases her analysis of the playing spectrum on their scrutiny. Starting from fighting and dancing, encompassing learning, interaction, emotion and strategy, this study heads towards luck and belief as well as the ambiguity of the relation to fiction and reality. It closes by indicating two features of play: its margin and its metaphorical structure. Ultimately revealing its consistency and coherence, the author displays play as a modality of action of its own. "Playing is no 'doing' in the ordinary sense" once wrote Johan Huizinga. Isn't playing doing something else, elsewhere and otherwise ?

The End and the Beginning 2010 Hermynia Zur Mühlen First published in Germany in 1929, The End and the Beginning is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Mühlen spent much of her childhood travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually penniless, in 1951. This revised and corrected translation of Zur Mühlen's memoir - with extensive notes and an essay on the author by Lionel Gossman - will appeal especially to readers interested in women's history, the Central European aristocratic world that came to an end with the First World War, and the culture and politics of the late nineteenth and early twentieth centuries.

London's Urban Landscape 2019-05-07 Christopher Tilley London's Urban Landscape is the first major study of a global city to adopt a materialist perspective and stress the significance of place and the built environment to the urban landscape. Edited by Christopher Tilley, the volume is inspired by phenomenological thinking and presents fine-grained ethnographies of the practices of everyday life in London. In doing so, it charts a unique perspective on the city that integrates ethnographies of daily life with an analysis of material culture. The first part of the volume considers the residential sphere of urban life, discussing in detailed case studies ordinary residential streets, housing estates, suburbia and London's mobile 'linear village' of houseboats. The second part analyses the public sphere, including ethnographies of markets, a park, the social rhythms of a taxi rank, and graffiti and street art. London's Urban Landscape returns us to the everyday lives of people and the manner in which they understand their lives. The deeply sensuous character of the embodied experience of the city is invoked in the thick descriptions of entangled relationships between people and places, and the paths of movement between them. What stories do door bells and house facades tell us about contemporary life in a Victorian terrace? How do antiques acquire

value and significance in a market? How does living in a concrete megastructure relate to the lives of the people who dwell there? These and a host of other questions are addressed in this fascinating book that will appeal widely to all readers interested in London or contemporary urban life.

Cargo Cult 2019-03-31 Lamont Lindstrom Who is not captivated by tales of Islanders earnestly scanning their watery horizons for great fleets of cargo ships bringing rice, radios and refrigerators - ships that will never arrive? Of all the stories spun about the island peoples of Melanesia, tales of cargo cult are among the most fascinating. The term cargo cult, Lamont Lindstrom contends, is one of anthropology's most successful conceptual offspring. Like culture, worldview and ethnicity, its usage has steadily proliferated, migrating into popular culture where today it is used to describe an astonishing roll-call of people. It's history makes for lively and compelling reading. The cargo cult story, Lindstrom shows, is more significant than it at first appears, for it recapitulates in summary form three generations of anthropological theory and Pacific studies. Although anthropologists' enthusiasm for the notion of cargo cult has waned, it now colors outsiders' understanding of Melanesian culture, and even Melanesians' perceptions of themselves. The repercussions for contemporary Islanders are significant: leaders of more than one political movement have felt the need to deny that they are any kind of cargo cultist. Of particular interest to this history is Lindstrom's argument that accounts of cargo cult are at heart tragedies of thwarted desire, melancholy anticipation and crazy unrequited love. He makes a convincing case that these stories expose powerful Western scenarios of desire itself—giving cargo cult its combined titillation of the fascinating exotic and the comfortably familiar.

The Warrior's Camera 2020-06-16 Stephen Prince The Japanese film director Akira Kurosawa, who died at the age of 88, has been internationally acclaimed as a giant of world cinema. Rashomon, which won both the Venice Film Festival's grand prize and an Academy Award for best foreign-language film, helped ignite Western interest in the Japanese cinema. Seven Samurai and Yojimbo remain enormously popular both in Japan and abroad. In this newly revised and expanded edition of his study of Kurosawa's films, Stephen Prince provides two new chapters that examine Kurosawa's remaining films, placing him in the context of cinema history. Prince also discusses how Kurosawa furnished a template for some well-known Hollywood directors, including Martin Scorsese, Steven Spielberg, and George Lucas. Providing a new and comprehensive look at this master filmmaker, The Warrior's Camera probes the complex visual structure of Kurosawa's work. The book shows how Kurosawa attempted to symbolize on film a course of national development for post-war Japan, and it traces the ways that he tied his social visions to a dynamic system of visual and narrative forms. The author analyzes Kurosawa's entire career and places the films in context by drawing on the director's autobiography--a fascinating work that presents Kurosawa as a Kurosawa character and the story of his life as the kind of spiritual odyssey witnessed so often in his films. After examining the development of Kurosawa's visual style in his early work, The Warrior's Camera explains how he used this style in subsequent films to forge a politically committed model of filmmaking. It then demonstrates how the collapse of Kurosawa's efforts to participate as a filmmaker in the tasks of social reconstruction led to the very different cinematic style evident in his most recent films, works of pessimism that view the world as resistant to change.

The Shadow and Its Shadow 2000-11 Paul Hammond The Shadow and Its Shadow is a classic collection of writings by the Surrealists on their mad love of moviegoing. The forty-odd theoretical, polemical, and poetical re-visions of the seventh art in this anthology document Surrealism's scandalous and nonreductive take on film. Writing between 1918 and 1977, the essayists include such names as André Breton, Louis Aragon, Robert Desnos, Salvador Dalí, Luis Buñuel, and man Ray, as well as many of the less famous though equally fascinating figures of the movement. Paul Hammond's introduction limns the history of Surrealist cinemania, highlighting how these revolutionary poets, artists, and philosophers sifted the silt of commercial-often Hollywood-cinema for the odd fleck of gold, the windfall movie that, somehow slipping past the censor, questioned the dominant order. Such prospecting pivoted around the notion of lyrical behavior-as depicted on the screen and as lived in the movie house. The representation of such behavior led the Surrealists to valorize the manifest content of such denigrated genres as silent and sound comedy, romantic melodrama, film noir, horror movies. As to lived experience, moviegoing Surrealists looked to the spectacle's latent meaning, reading films as the unwitting providers of redemptive sequences that could be mentally clipped out of their narrative context and inserted into daily life-there, to provoke new adventures. "Hammond's book is a reminder of the wealth and range of surrealist writings on the cinema. . . . [T]he work represented here is still challenging and genuinely eccentric, locating itself in an 'ethic'

of love, reverie and revolt." --Sight & Sound "Hammond, who is the author of the invaluable anthology *The Shadow and its Shadow: Surrealist Writing on the Cinema* (1978), writes about cinema independently of the changing academic and cultural fashions of film theory and abhors the dogmas of contemporary border-patrol thought. His magnetically appealing free-wheeling form of erudite film-critical writing is recognisable for its iconoclastic humour, non-authoritarian verve and playful witty discursivity." --John Conomos, *Senses of Cinema* Paul Hammond is a writer, editor, and translator living in Barcelona. He is the author of *Constellations of Miró*, Breton which was published by City Lights.

Love For Love William Congreve

Virgil, Aeneid, 4.1-299 2012 Ingo Gildenhard Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

The Duchess of Padua (EasyRead Super Large 24pt Edition) 2010 Oscar Wilde

King Leopold's Ghost 2019-05-02 Adam Hochschild Winner of the Duff Cooper Prize, King Leopold's Ghost is the true and haunting account of Leopold's brutal regime and its lasting effect on a ruined nation. With an introduction by award-winning novelist Barbara Kingsolver. In the late nineteenth century, when the great powers in Europe were tearing Africa apart and seizing ownership of land for themselves, King Leopold of Belgium took hold of the vast and mostly unexplored territory surrounding the Congo River. In his devastatingly barbarous colonization of this area, Leopold stole its rubber and ivory, pummelled its people and set up a ruthless regime that would reduce the population by half. While he did all this, he carefully constructed an image of himself as a deeply feeling humanitarian. King Leopold's Ghost is the inspiring and deeply moving account of a handful of missionaries and other idealists who travelled to Africa and unwittingly found themselves in the middle of a gruesome holocaust. Instead of turning away, these brave

few chose to stand up against Leopold. Adam Hochschild brings life to this largely untold story and, crucially, casts blame on those responsible for this atrocity. 'All the tension and drama that one would expect in a good novel' - Robert Harris, author of *Fatherland*

Ted Hughes 2015-03-18 Joanny Moulin English version of a biography of Ted Hughes first published in French in 2007. Ted Hughes's destiny had this rare peculiarity that it was inextricably wedded to that of a woman poet of a comparable strength. But neither he nor Sylvia Plath would have achieved the fame that is theirs the one without the other. Sylvia passionately wanted to give herself the life and the death that it took to metamorphose herself into lasting poetry. She immortalised herself so violently that Ted found it hard to survive as someone else than the character in the poem of her life. He managed to, however, for Ted Hughes was a secret man as well as a profound poet. Hughes's life is as dark as his writings, for he saw his poems as the erratic chance manifestations of the subterranean life of the spirit. He believed that our conscious life was only the poor surface of a rich invisible epic. Poems were for him like partly destroyed letters received from another world. No doubt that was only an illusion, but which was grounded in his England. For he came from the rural North, still haunted by ancestral superstitions. He preferred this animal life of the spirits to the sad, machine-like existence of

modern man. The life of a great poet is allegorical: his poetry is the only written trace of it that counts.

The Educated Mind 2007-12-01 Kieran Egan  
The Educated Mind offers a bold and revitalizing new vision for today's uncertain educational system. Kieran Egan reconceives education, taking into account how we learn. He proposes the use of particular "intellectual tools"—such as language or literacy—that shape how we make sense of the world. These mediating tools generate successive kinds of understanding: somatic, mythic, romantic, philosophical, and ironic. Egan's account concludes with practical proposals for how teaching and curriculum can be changed to reflect the way children learn. "A carefully argued and readable book. . . . Egan proposes a radical change of approach for the whole process of education. . . . There is much in this book to interest and excite those who discuss, research or deliver education."—Ann Fullick, *New Scientist* "A compelling vision for today's uncertain educational system."—*Library Journal* "Almost anyone involved at any level or in any part of the education system will find this a fascinating book to read."—Dr. Richard Fox, *British Journal of Educational Psychology* "A fascinating and provocative study of cultural and linguistic history, and of how various kinds of understanding that can be distinguished in that history are recapitulated in the developing minds of children."—Jonty Driver, *New York Times Book Review*

2001-05-03 S. Napier With the popularity of Pokemon still far from waning, Japanese animation, known as anime to its fans, has a firm hold on American pop culture. However, anime is much more than children's cartoons. It runs the gamut from historical epics to sci-fi sexual thrillers. Often dismissed as fanciful entertainment, anime is actually quite adept at portraying important social and cultural issues like alienation, gender inequality, and teenage angst. This book investigates the ways that anime presents these issues in an in-depth and sophisticated manner, uncovering the identity conflicts, fears over rapid technological advancement, and other key themes present in much of Japanese animation.
